Dear Ceilidh House Members

North West Training Centre has a small amount of funding to provide support to you for basic computer skills such as scanning photos, word-processing and using the internet.

Jane will be visiting you at the Ceilidh House Wednesday 13 May so if you have a special photograph you would like to be scanned or printed please bring it along. There will be an opportunity to deal with any other basic computer queries you may have and arrange a separate help session if you would like.

You are also invited to contribute to a project booklet we hope to publish in the autumn. Any member interested could write a small piece about their photo later on or if you have a few words for a poem this would be welcome too but only if it pleases you to do so.

Looking forward to seeing you all.

Best Wishes

Jane
